

MUHAMMAD ANDRI ABDULLAH ROSYID

Bekasi, West Java | andrialsyd@gmail.com | +62 81317190353 | [linkedin.com/in/andrialsyd/](https://andrialsyd-portfolio.vercel.app/) | <https://andrialsyd-portfolio.vercel.app/>

Full Stack Developer with hands-on experience building and maintaining websites, internal dashboards, and transactional business systems, from frontend (HTML, CSS, JavaScript, React.js, Next.js, Laravel Blade) to backend (Node.js, ASP.NET Core, PHP/Laravel full stack, CodeIgniter, Java Spring Boot) and database design (MySQL, SQL Server, Oracle). Experienced building REST APIs, transaction/calculation logic (payroll, procurement, invoicing-style computation), authentication, and role-based access. Comfortable working directly with business owners to translate requirements into working systems, debugging independently, and using AI coding tools (Cursor, Antigravity) to speed up development. Has delivered a full system solo for a real client, end-to-end.

Core Skills

Frontend: HTML, CSS, JavaScript, Laravel Blade, React.js, Next.js, Bootstrap, jQuery

Backend: PHP (Laravel full stack, CodeIgniter), Node.js, ASP.NET Core (C#), Java Spring Boot, RESTful API Design & Development

Databases: MySQL, Microsoft SQL Server, Oracle Database - schema design, stored procedures, query optimization, data security basics

Quality & Deployment: Debugging & Troubleshooting, Unit/Integration/UAT Testing, Apache Tomcat Deployment, Git (GitHub, GitLab), Technical Documentation

AI-Assisted Development: Cursor, Antigravity, Prompt Engineering, AI Output Safety (guardrails & safe error handling)

Work Experiences

PT Cita Cita Aditama | Freelance / Remote

Jul 2026 – Sep 2026

Full Stack Developer

- Independently designed and built a full HRIS covering payroll, attendance, employee management, role-based access, and recruitment, backend logic in ASP.NET Core, database in SQL Server.
- Applied prompt engineering with AI guardrails (restricting AI actions on sensitive data) and safe parsing of AI output to prevent application crashes on malformed responses.

PT Velasto Indonesia (Astra Otoparts), Purwakarta - West Java

Jan 2026 – Jun 2026

Full Stack Developer Intern

- Designed and developed five enterprise web applications covering Human Resource Information System, OEE Monitoring, Energy Monitoring, Maintenance Management, and Warehouse Management.
- Designed SQL Server databases and debugged/optimized system performance; coordinated directly with stakeholders to translate operational needs into features.
- Performed Unit, Integration, and UAT testing, and maintained technical documentation.

MRP Part Import System | Astra Honda Motor

Mar 2025 – Aug 2025

Full Stack Developer

- Built an internal operational dashboard-style system (Material Requirement Planning) for procurement, inventory, and material tracking, with REST APIs (Java Spring Boot, Node.js) integrated to Oracle Database.
- Used Git/GitLab for version control and deployed the application on Apache Tomcat.

Student Attendance System | Web Application Integrated with Fingerprint Device

Oct 2024 – Jan 2025

Full Stack Developer

- Developed a web-based attendance management system integrated with a fingerprint device to automate attendance recording and lateness calculations.
- Developed a full-stack attendance monitoring system by integrating a responsive frontend (React.js, Bootstrap) with a robust backend (C# ASP.NET Core, RESTful APIs) to manage student records, attendance processing, and device integration.

Asri App | Cross-Platform Digital Library Application

Jun 2025 – Jul 2025

Mobile & Backend Developer

- Developed a cross-platform digital library application using React Native for Android and iOS, enabling users to browse, borrow, and read digital books through an intuitive mobile interface.
- Implemented backend services using Java Spring, Node.js, SQL Server, and RESTful APIs to manage authentication, book catalogs, and borrowing transactions.

Education

Politeknik Astra, Bekasi - West Java

Aug 2023 – Jun 2026

Diploma in Information Management, GPA 3.61 of 4.00

- **National Finalist (Network Track)** - Huawei ICT Competition 2024-2025

Organizational Experiences

HIMMA Information Management

Mar 2024 – Dec 2025

Education Department Committee Member

- Mentored Information Management students through the 911 Study Buddy program by providing programming guidance, academic support, and fostering problem-solving skills.

Information Management Study Program Matriculation 2025

Sep 2025

Student Mentor

- Guided incoming students in adapting to academic and technical learning environments by delivering introductory sessions on programming fundamentals and effective study strategies.

Certifications and Languages

Certifications: MikroTik Certified Network Associate (MTCNA), “Cisco Dasar” and “Jaringan Komputer Dasar” IDN- Networkers

Languages: Indonesia (Native), English (Professional).
